BAR SUPPLIES AND PRODUCT INOVATION

*Royal cocktail*

## Royal Cocktail

**Please read the instructions first in order to prepare a delicious, colourful cocktail!**

1. Rinse the ROYAL COCKTAIL first, before using it for the first time
2. Wet the floater by plunging it into the water
3. To achieve a guaranteed success with your ROYAL COCKTAIL you have to take account with the specific gravity of the beverages you want to use.
4. By adding syrup (sugar) to the beverage, you will make it heavier. To make the beverage lighter, add alcohol.
5. Do not use juices containing pulp as they can plug the small opening of the ROYAL COCKTAIL
